ABOUT ME

Computer Science graduate and aspiring Frontend Developer with hands-on experience building responsive web applications and interactive digital projects using HTML, CSS, JavaScript, and React. Led the development of Warang Ta, an educational game showcasing Kalibo's history and culture, and developed an online enrollment system with dedicated student and teacher portals.

PROJECTS

- **Warang Ta – Educational Game | Capstone Project**
Lead Programmer & Team Leader | Godot, GDScript

Developed core game systems and interactive gameplay features that introduce players to Kalibo, Aklan's history, culture, tourist attractions, and basic Aklanon language. Coordinated the development team, managed programming tasks, and helped guide the project from concept through completion using Godot Engine and GDScript.

- **Online Enrollment System | React, Tailwind, JavaScript, MySQL**

Developed a web-based enrollment system with student and teacher portals, allowing students to enroll in courses, view grades and class schedules, and manage academic information, while teachers can submit and manage student grades. Integrated a database for academic record management and used Claude as an AI-assisted development tool.

- **Portfolio Website | HTML, CSS, JavaScript, EmailJS**

Designed and developed a personal portfolio website showcasing my technical skills, projects, video editing work, and professional background. Built an interactive and responsive interface to present my work and experience in an organized and user-friendly way.

- **Contract Tracking System | Microsoft Excel**

Developed a contract tracking system for PGSO to monitor contract status, track required documents, and organize contract records. Designed the system to help staff quickly check contract progress and identify incomplete requirements, improving the efficiency of contract monitoring and document management.

EXPERIENCE

- **Supervising Administrative Officer Assistant : Jan 20 – Mar 17, 2026**

Served as an On-the-Job Trainee (OJT) Assistant to the Supervising Administrative Officer at the Provincial General Services Office (PGSO), assisting with administrative tasks, document management, data encoding, inventory records, and daily office operations.

- **Freelancer : "2021 – 2026"**

Worked as a freelance developer, designing and developing multiple portfolio websites for clients using HTML, CSS, JavaScript, and basic programming. Created customized, responsive websites tailored to each client's personal brand, profession, and project requirements.

- **Video Editor : "2023 – 2026"**

Worked as a freelance video editor creating content for TikTok, Instagram, and other social media platforms, including promotional videos, events, birthdays, weddings, and personal projects. Edited short-form videos using CapCut, focusing on pacing, transitions, captions, effects, and visual storytelling.
